COMPANY OVERVIEW
Superior Gold Inc. is a Canadian based gold producer that owns and operates 100% of the Plutonic Gold operations located in the world class goldfields of Western Australia. The Plutonic Gold operations include the Plutonic underground gold mine, the Hermes open pit projects and an interest in the Bryah Basin joint venture. The Plutonic mine has been in continuous production since 1990 and, having produced more than 5.5 million ounces of gold, is one of Western Australia’s largest historic gold producers.

In 2020, the Company is targeting production of between 80,000 to 90,000 ounces and remains focused on establishing the Plutonic Gold operations as a producer capable of delivering at least 100,000 ounces of gold annually.

The Company is focused on true shareholder returns and operating as a business first and a gold company second.

INVESTMENT HIGHLIGHTS
- Continuous production at Plutonic Gold mine since 1990
- Historical production of >5.5 million ounces (a big system!)
- Demonstrated ability to generate free cash flow → Purchase price of AU$40 million recouped in 15 months
- More than a fourfold increase in underground reserves at Plutonic and substantial increase in total resources since acquisition
- Constructed a second mine (Hermes) from internally generated funds
- Cumulative production of ~293,000 ounces (since acquisition)
- Strong re-valuation opportunity

MANAGEMENT
Chris Bradbrook – President & CEO

Mineral Reserves as at December 31, 2018 were estimated using a long term gold price of A$1,650 per ounce (US$1,217 per ounce).

Mineral Resources as at December 31, 2018 were estimated using a long term gold price of A$1,700 per ounce (US$1,254 per ounce).

Plutonic Gold Mine
- Strong mineralized system with potential to expand existing resource
- Numerous high-grade intercepts obtained from both infill and exploration drill holes
- Average depth of the mine is only 500 metres with the deepest part of the mine at 700 metres
- Many near surface and underground exploration targets

Near Mine Exploration Targets
- Large areas of untested mafic volcanic
- Historic open pit expansion / underground potential
- Development would require low capital and short lead time
