

SUPERIOR GOLD INC. ADDS THIRD UNDERGROUND DIAMOND DRILL AT THE PLUTONIC GOLD MINE

PRIORITIZING FURTHER MINERAL RESERVE AND RESOURCE EXPANSION

Toronto, April 30, 2018 – Superior Gold Inc. (“Superior Gold” or the “Company”) (TSX.V:SGL) is pleased to announce that it has added a third underground diamond drill at its 100%-owned Plutonic Gold mine in Western Australia.

Chris Bradbrook, President and CEO of Superior Gold stated: “Since the acquisition of the Plutonic Gold operations in October 2016, we have had two underground diamond drills operating. These have been primarily focused on grade control work and to a lesser extent, resource definition. This third diamond drill is expected to complete approximately 3,000 metres per month and will be focused solely on mineral reserve and resource definition and expansion.

We recently provided an updated mineral reserve and resource update (April 3, 2018). At that time, we announced that we hoped to provide an updated estimate during 2018. The addition of this dedicated diamond drill will allow us to work towards this goal.”
