¹ Numbers may not add due to rounding.

² Surface material milled in Q1, Q2, and Q3 is primarily from Hermes but includes additional material totalling 33,169 tonnes (at 0.62 g Au/t), 18,707 tonnes (at 0.52 g Au/t), and 8,555 (at 0.79 g Au/t), respectively.

³ Gold produced and gold sold in Q1 includes a contribution from Hermes prior to commercial production being declared.

Chris Bradbrook, President and CEO of Superior Gold stated: "We are pleased to have achieved record quarterly gold sales for the second successive quarter at our Plutonic Gold operations. The ounces sold in the third quarter of 2018 represent a 24 percent year over year increase. Of particular significance is the fact that, with cumulative production of 50,327 from the second and third quarters, we have now maintained an annualized production rate of more than 100,000 ounces for the past six months.

During the quarter, we commissioned the gravity circuit and saw the positive benefits from its operation. A scheduled tank reline was expected to negatively affect recoveries, but this was offset by the beneficial impact of the gravity circuit. Recently announced site changes are achieving the intended improvements, which we believe will lead to improved operating performance".

The Company will be releasing complete financial and operating results for the third quarter and first nine months of 2018 before market open on November 13, 2018.
